Super Showdown: Ferrari vs Audi in the Ultimate GT3 Duel

The Carrera DIGITAL 124 set "Super Showdown" brings thrilling GT3 racing straight into your living room. Two iconic machines take to the starting line: The Ferrari 296 GT3 "AF Corse, No.21" impresses with its powerful V6 hybrid engine and cutting-edge racing technology, while the Audi R8 LMS GT3 Evo II "Land Motorsport, No.23" wins fans over with its ferocious V10 engine and aerodynamic optimisation. Both vehicles feature realistic front and rear lights, as well as a brake light function, making the racing experience even more authentic. Thanks to the CONTROL UNIT and WIRELESS 2.0 hand controllers, racing fans enjoy maximum freedom of movement and precise control. Double switches and challenging corners create intense racing action and adrenaline rushes on the high-speed straights.

The ultimate GT3 racing experience

The Carrera DIGITAL 132 set '24H Speed' features two front grid occupants - the Ferrari 296 GT3 'AF Corse, No.21' and the Aston-Martin Vantage GT3 'Northwest, No.98'. These ultra-modern GT3 racing cars participate in various endurance races, including the most famous 24-hour race of all, and epitomise the pinnacle of high performance and precision technology in motor racing. Carrera DIGITAL 132 24H Speed offers endless racing fun on extra-wide 1:24-scale tracks. It's perfect for enthusiastic racing drivers of all ages and offers plenty of racing thrills in battles with friends and family en route to the chequered flag.

Additional features such as front, rear, and brake lights deliver a realistic racing experience, while ghost and safety car functions add extra excitement on the track. With the push of a button, full-speed lane changes can be executed, and the two included WIRELESS 2.0 controllers provide maximum freedom of movement. Thrilling races and exhilarating duels with friends and family are guaranteed!

„Pole to Podium“: Turn your living room into a DTM racetrack

The new Carrera DIGITAL 132 set „Pole to Podium“ brings DTM racing into your living room. On a 7.6-meter track, the Ferrari 296 GT3, driven by Jack Aitken and Thierry Vermeulen for Emil Frey Racing in the 2023 season, faces off against the Mercedes-AMG GT3 Evo "Mercedes-AMG Team HRT, No.4," with which Luca Stolz secured 6th place overall in 2023. The Carrera racetrack guarantees absolute racing action: the high-speed straights allow for full-throttle driving, while the curves and double lane changers require finesse. With the WIRELESS 2.0 controllers, Carrera drivers enjoy unrestricted freedom of movement. Hearts race as the drivers take control. The tension rises with every overtaking maneuver and cool drift. Here, milliseconds decide victory or defeat, and each lap brings new challenges and adrenaline rushes. Drivers feel the thrill as they fight for every centimeter and engage in thrilling duels with friends.

NASCAR Darlington Showdown

GM | N24 | N5

Born-in-the-USA racing dreams
In the US, NASCAR racing is the no.1 'go-to' motorsport. Now the Carrera EVOLUTION 'NASCAR' set is bringing US engine power to the living rooms of the world. At 5.3 metres/17.26 ft. in length this racetrack has long straights and bends, so it's perfect for high-speed duels. Two Chevrolet Camaro NextGen ZL1s from the Hendricks Motorsports racing team roll out onto the grid. Car number 5 is driven by the Californian Kyle Larson, winner of the 2021 championship, while the number 24 car is raced by team-mate William Byron from North Carolina. Ultimately, the result of Living Room Cup championships is solely in the hands of those drivers holding Carrera controllers.

Formula 1 with Max power guarantee
The Carrera GO!!! Flying Lap set is all about speed. The long straights of the 4.3-metre/14.11 ft. track invite drivers to push their cars to the limit for victory and a place at the top of the podium on their hand-held controllers. Beware! The straights tempt drivers to reach borderline speeds, so a keen instinct is needed to avoid flying off the track in the bends. On the starting line are the Spaniard Carlos Sainz in the Ferrari SF-23 and the three-time world champion Max Verstappen in the Oracle Red Bull Racing 'RB19'. Victory is determined by Carrera racing enthusiasts aged 6 years and up.

Mario Kart™ - Mario vs. Peach

NI

The world-famous plumber and his princess on the race track! The Mario Kart™ stars have been racing around since 1992 and have long won the hearts of both young and old. Super Mario™ and Princess Peach™ also look fantastic in their slot cars on a scale of 1:50. With the Nintendo® license, even the smallest details have been thought through. The Carrera cars tear around the track covering a total distance of 2.4 meters/7.87 ft. Small children's hands can hold the ergonomically shaped controllers securely and with ease. Four type C batteries are required to control the cars. The Carrera FIRST race track is not only an absolute eye-catcher because of its child-friendly colour, but also because of the theme-specific decorative elements that give the race track that special something. Who do you think will emerge victorious in the race? Can Mario™ prevail over Princess Peach™ or will the Princess be the first to finish?

WIRELESS 2.0)))

WIRELESS RACING THRILLS WITH 2.4-GHZ RADIO TECHNOLOGY

The new and innovative Carrera Wireless 2.0 system revolutionises the racetrack experience with a range of exciting benefits for car racing enthusiasts. Wireless technology eliminates the problem of tangled cables, so Carrera drivers enjoy a more convenient and realistic driving experience. The Wireless 2.0 system's 2.4-GHz radio technology guarantees interruption-free action at ranges of up to 15 metres, as well as a stable connection for unrestricted freedom of movement around the racetrack.

The Wireless 2.0 system replaces sensitive lithium batteries with standard (or rechargeable*) AAA 1.5-V batteries.

There's also a particularly advantageous, cost-effective upgrade option to the new Wireless 2.0 system for Carrera DIGITAL 124/132 racetracks with wired hand controllers. This means there are no obstacles to exciting race action with friends and family – and no more tangled cables!

In summary, the Carrera Wireless 2.0 system promises a stable and versatile wireless racing experience that takes high-speed track action to a whole new level!

Wireless 2.0 Set Duo for Carrera DIGITAL 124/132

2 Wireless 2.0 speed controllers, 1 Wireless 2.0 receiver, instructions. 2 AAA 1.5 V batteries required (not included). Can be used to upgrade Carrera DIGITAL 124/132 sets with cable speed controllers.

Information on the compatibility of Carrera Wireless 2.0 with the previous 2.4-GHz Wireless+ system: Wireless 2.0 hand-held controllers can only be operated with a Wireless 2.0 receiver. The previous Wireless+ hand-held controllers only work with Wireless+ receivers. Nevertheless, parallel operation is possible if both a Wireless 2.0 receiver 20010122 and a Wireless+ receiver 20010112 are connected to the Carrera Digital Control Unit. However, the addresses of the vehicles must not be assigned twice.

Carrera Check Lane

Split TIME MEASUREMENT

The Carrera Check Lane makes it instantly possible for Carrera drivers to measure their intermediary times. Placed at any point, the Carrera Check Lane measures the drivers' intermediate times. Just like in real auto racing, the Carrera drivers instantly have their complete driving behavior on the course under their control.

ENGINE MEASUREMENT

The acceleration of a Carrera car can be measured precisely, through the installation of several Check Lanes in a row. Thanks to the Carrera Check Lane, not only the final result, but also the driving behavior throughout the entire race counts! (only in connection with Carrera App Connect and the Carrera Race App).

ENJOY FULL ACTION AND THRILLING CAR RACES

**ON YOUR MARKS, GET READY, GO!
LET THE RACE BEGIN ...**

Full racing action is guaranteed with the cool Pull & Speed racing cars.

A big variety of vehicles will make the heart of any little race driver beat somewhat faster. The strong pull-back engine makes it possible: simply pull the cars back, let them go and in an instant the vehicle takes up the race in full speed. Due to the stable plastic chassis collisions and crashes do not constitute a problem and thus the vehicles are also suitable for children ages 3 and up.

The small and precise replicas, at a scale of 1:43, are in no way inferior to their "big brothers". Due to the original licenses the models fascinate by their perfect scale and detailed execution. Pull & Speed offers great driving fun for all ages as well.

2,4GHz Mario Kart™ Pipe Kart, Mario

NI

Mario is ready to race in his sleek looking 2.4 GHz Pipe Kart. The 1:18 scale radio control car features pneumatic tires, full function steering, and can accelerate up to 9 km/h - 5.6 mph on various courses across multiple terrains. Hit the gas and race with Mario nonstop for up to 30-minutes on a single 50-minute battery charge with the included 3.2V rechargeable LiFePO4 battery. Mario is ready to run with the remote-control batteries included as well. Rated for ages 6 years old and up, both children and adults alike will enjoy countless hours of fun and excitement with this RC car.

NI

Boredom is a thing of the past: Here comes Mario in his speedster! The moustachioed, rather short hero Mario, dressed in his overalls and peaked cap, can now rule the playroom in his new racing machine. The blue and white race kart makes quite an impact with its length of approx. 25 cm/9.1 in.! With speeds of up to 10 km/h - 6.2 mph, Mario lets the tires squeal. Thanks to the 2.4GHz full function transmitter and an extra durable and especially reliable 3.2V-700mAh LiFePo4 battery, Mario can enjoy up to 20 minutes of racing with his friends. The vehicle is "ready to run" and so guarantees racing fun from the very first instant.
